Hannover, Germany

Aim

This informal meeting provides an opportunity for young herpesvirus researchers to present their data to a knowledgeable audience, meet colleagues, and initiate fruitful collaborations. We will enjoy short oral presentations given by graduate students and postdocs, which will be selected from submitted abstracts.

We will also have two excellent keynote lectures given by **Hannah Burgess** from the University of Surrey (UK) and **Jia Zhu** from the Fred Hutchinson Cancer Center (USA).

When and Where

The workshop will be held on Friday, 29th of September 2023, from 10:00 to 18:00 at "Hörsaal R" of Hannover Medical School (MHH), located on the ground floor of the I6 building, at Carl-Neuberg-Strasse 1, 30625 Hannover.

The MHH campus is easily reached by U-Bahn line number 4, station "Medizinische Hochschule Hannover" (direction Roderbruch).

Following the exciting scientific Workshop, we will enjoy a social event at Twincore, located in close proximity to the MHH.

Further information regarding the Workshop (incl. preliminary program and abstract submission) can be found at <https://depledgelab.github.io/MHW2023/>
